

Attend The Annual Irma Legion Sports Day On June 14

Local Women to Attend Cancer Institute at U. of A Program Sponsored By Alberta Women's Institutes

Appointed by their W.I.'s to attend the Cancer Institute being held at the University of Alberta next week, are Mrs. J. Colin McLean of Irma, past president, then director of the Irma Institute, then convener of Wainwright Constituency and at present Director of the District 2 Institute; Mrs. Grace E. Archibald, member for 7 years of the Buffalo Copley Institute; Mrs. Albert D. Glasgow, life-long resident of Irma, a registered nurse, member of Irma Branch Institute and also of the ATA; Mrs. Clark M. Steele of Fabyan, member of the Battle River Institute for the past two years who also takes interest in the local Good Time Club.

The Cancer Institute, organized by the Alberta Women's Institutes in co-operation with the Canadian Cancer Society, will be held from May 21 to 25. During the four-day

course the 200 representatives of Institutes from the central and northern part of the Province will hear lectures from specialists in all branches of cancer-work, and see demonstrations of equipment used in modern diagnosis and treatment. Those attending will be told of the importance of lay participation in the cancer control program, and shown methods of developing cancer education programs in their own communities. First of its kind in Canada, the course has been made possible through the efforts of the Alberta Women's Institutes, who, over the past few years, have made many thousands of dollars available for cancer control.

A course for southern representatives will be held at the School of Fine Arts in Banff, from May 28 to June 1.

Irma School Principal Is Happy

I. S. Reeds, principal of the Irma school, is a happy man following the official opening of the new school. Mr. Reeds is pictured along with a radio and record player given the school in honor of Mrs. Reeds. It was donated by former pupils of the school. The principal has 25 years' service at the Irma school.—Photograph by Wainwright Studio, Wainwright.

United Church Sunday School Presents Mother's Day Service

The Irma United Church Sunday School held its annual Mother's Day service on May 14 at 11 a.m.

This service is always one of the highlights of our Sunday School year and there seemed to be just a little something extra to this year's program.

The church had been decorated for the occasion by the Junior girls and a good crowd numbering 140 gathered early to do honor to this special occasion.

The program led by Mr. I. S. Reeds, followed closely the leaflet issued by the Religious Education Council of Alberta but was supplemented by the following items:

A song by the primary group; A trio by Verlie Sampson, Betty Rae Kirkman and Isobel Inglis.

The last item on this fine program was a family trio consisting of Mrs. Geo. Fischer at the piano, Donnie Fischer violin and Alice Fischer as soloist who presented a Mother's Day song.

All the varied talent displayed was of a very high order and one only had to look around at the many lovely youngsters present to realize how rich and precious our Sunday School is and what an opportunity and privilege for both old and young the Gospel of Christ still holds.

At the Churches

UNITED CHURCH

Sunday, May 21
Strawberry Plains—11 a.m.
Albert—2 p.m.
Irma—Sunday School and Bible Class 11 a.m.
Worship Service—7:30 p.m.
Psalm 43:3. O send out thy light and thy truth let them lead me; let the bring me unto thy Holy Hill and to thy tabernacle.
—Rev. H. W. Inglis, minister.

AVONGLON GOSPEL MISSION

For May 21 to 27
Sunday
10:45 a.m.—Sunday School and Adult Bible Class.

Regular Council Meeting Held on May 11

The regular monthly meeting of the council of the Village of Irma was held in the village office on May 11, 1950, at 8 p.m.

Councillors present: C. P. Jones, W. N. Frickelton and W. Symington. Frickelton—That the minutes of the previous meeting be adopted as written.

Following correspondence was dealt with:
Dept. of Mun. Affairs and Al. Town General's dept. re Town and Village Act.

T. J. Pounder and Co., Edmonton, re cold asphalt. Secretary to contact representative and arrange meeting, with council.

S. A. Inklin, application for dray license. Approved.
Wainwright Hospital Auxiliary, permission to hold tag day. Not approved.

Haldin, Davis and Brown, Ltd., Edmonton. Filed.

British America Assurance Co., re rate for coverage of fire brigade. Tabled.

Dept. of Mun. Affairs, re new Acts and Amendments, 1950; read and discussed. Filed.

Mrs. Alma Enger, re rest room. Filed.

Mr. F. Keith Coffin, representing the Canadian Legion requested that certain improvements be made to the ball diamond back stop, etc., and for permission for the Legion to hold annual sports day on June 14, 1950, on the agri. grounds.

Frickelton—That material be provided and work to be donated by the ball club and Canadian Legion; cost of such material not to

exceed \$20.00, and permission granted for sports day for June 14, 1950.

The council discussed the opening up of the West end of 2nd Ave. West and the lane running South and North from 1st to 3rd Ave.

Jones—that we proceed to do this work as early as possible and secretary to notify owners of lots adjoining thereto accordingly.

Bylaw No. 162 to provide for the extension from assessment and taxation of certain building until such building was complete and in operation. (Section 7 Assessment Act. Sub Sec. 5-8 as amended 1949). Subject to the approval of the Minister, passed first, second and third reading.

Bylaw No. 163 presented. The following mill rates were agreed on.

Education 22M, Municipal 20M, Hospital 4M and \$10 Minimum. Bylaw 163 for the purpose of setting forth the various Mill rates for the year 1950, passed first, second and third reading.

Jones—that copy of estimates be incorporated in the minutes.
Financial Statement: Receipts for month of April \$39.00. Payments: \$2149.81. Outstanding Cheques: \$6.00. Municipal Balance \$2098.75. Agri. Trust \$427.01. Cemetery Trust \$155.02.

Frickelton—that financial statement be accepted as presented and that accounts to the amount of \$125.70 for the month of April be passed for payment.

Fire equipment examined and found in good order.
Symington—adjourn.

Dominion Secretary News Items From Of Young People's Kinsella and District Speaks at Meeting

A fine group of ladies from Viking, Kinsella, Jarow, Wainwright and Edgerton met with Irma ladies and the Irma CGIT Explorers in the Irma United Church on the afternoon of May 16 to hear Miss Olive Sparling, Dominion Secretary for Young People's Work.

At this meeting Miss Sparling spoke on opportunities for women in church work, and of how women with ability for leadership should be helped and encouraged in working with the church. She stressed that though governments and economic systems fail, true Christian work will stand all tests.

Following this address the Irma W.M.S. served a bountiful supper for 16.

After supper a CGIT group with its leader arrived from Wainwright. An evening meeting was then held.

Miss Sparling gave an address on the work of the CGIT as a factor in world friendship. She then conducted an affiliation service with the CGIT and Explorers. These groups, with their leaders, Miss Thurston and Mrs. Torrance, presented money gifts to be used in WMS work. These gifts were accepted by Mrs. Inglis.

A fine supper was served to the CGIT groups and friends. The Irma and Wainwright groups had a fine sing-song and get-together around the tables and expressed their sincere thanks to the WMS for making this happy evening possible.

Glen-Coa Gleanings

Mother's Day brought visitors to the Withall home. Miss Betty Mackay from Camrose, and Mr. and Mrs. Stan Berg and wee daughter from Gwynne.

Miss Evelyn Erickson spent last week-end at her home here, returning to her school studies at Camrose College on Monday.

Sharon Luther League had a special Mother's Day program last Sunday evening. The topics were taken by Mrs. H. Fuder and Mrs. O. Likness. Other items on the program were appropriate to the day and were very much appreciated—a solo by Miss Arlene Stefensen; a reading by Miss Norma Likness; a trio by our Sharon girls, Lily Nelson, Eunice Saitre and Arlene Stefensen; and a mixed quartet, Lily, Eunice, Ralph Erickson and Gordon Tillingen.

Easterly Echoes

Stanley Bacon, son of Mr. and Mrs. Wesley Bacon is a patient in the Wainwright hospital but we understand he is much improved and expects to be home shortly.
Mr. Fugh Elliott is once again employed at the Military Camp at Wainwright.

The District Agriculturists have again planted an experimental plot south of the highway on Mr. R. Dempsey's farm.

Mr. and Mrs. C. Wilbraham of Wainwright were Sunday visitors at the home of Mrs. K. Stougaard and Julius.

The Battle River W.I. are holding a quilting party at the home of Mrs. R. Dempsey, the west ladies on the 23rd and the east ladies on the 24th.

Northern Nuggets

Mrs. Ivan Currie arrived home last week-end after spending a week in Edmonton with her daughter, Mrs. Owen Moore.

Mrs. John Allen has been a recent patient in the Mannville hospital.

Little Alan McRoberts has also been in hospital with a severe cold. We are glad both these folks are feeling better now.

This week the Albert district would like to extend best wishes to Mr. H. H. Currie who celebrated his 90th birthday on Fri.

CARD OF THANKS

My sincere thanks and appreciation to all who sent cheerful letters, cards and gifts to me during my recent illness. Special thanks to the teacher and pupils of the Grade Ten of the Irma Rural High School.

—Cora Larson.

Geography And Progress

THE STUDY OF GEOGRAPHY is no longer concerned only with the physical features of a country, its imports and exports, and other facts which were formerly associated with that subject. It has now broadened out to become a study of the various factors which govern the environment of a country and as such it has provided a new approach to many problems. A great many interesting facts about Canada have been brought out in connection with the effects of climate and of the features of the land upon the people and the economic future of the country. Dr. Griffith Taylor, professor of geography at the University of Toronto is of the opinion that nature largely decides the economic program of any country before it is inhabited and that in developing new land, many should follow the course indicated by the natural features of the area.

Shows Areas For Farming

In this connection there have been some interesting remarks made by Dr. Griffith Taylor, professor of geography at the University of Toronto. Dr. Taylor has pointed out, the great governing factor is the July temperature. Places in which the average temperature in July is not less than 57 degrees are suitable for farming. In Canada, the boundary marking the line for the area in which that is the lowest average temperature in July, runs through the northern point of Newfoundland, north of the Maritime Provinces, through Northern Quebec and Ontario, around the lower edge of James Bay, across Northern Manitoba and Saskatchewan and up the Mackenzie River valley to the Arctic Circle. This does not mean that all the land within that area is suitable for agriculture. Much of it is covered with timber or is taken up with the rich metallic shield which covers a large part of Northern Quebec, Ontario, Saskatchewan and Manitoba.

Still Much Arable Land

There are, however, the rich lands in the Peace River area in Alberta and British Columbia, and the possibilities for agriculture along the Mackenzie River valley. There is also still a large area suitable for farming in the central part of that province. In pointing out the possibilities for farming in Northern districts, experts in geography cite the example of similarly situated areas in Russia, where with the use of special seed, successful crops are grown in some regions where there are less than ninety frostless days in the year. It appears that there is still a considerable amount of land which can be brought under cultivation in Canada when there is need for it, and the study of geography is of interest and importance in the contemplation of this, and other future developments here.

The Queen To Visit Northern Ireland

LONDON. — Queen Elizabeth will visit Northern Ireland July 14-18. She will stay at Hillsborough Castle with the Governor, Earl Granville, and Countess Granville, her sister.

The first World War II peace treaty was signed by Britain and Spain on Jan. 1, 1946.

BRITISH OFFICIALS TO VISIT WESTERN FAIRS

LONDON. — Two British livestock officers are to tour Canada this summer, promoting pedigree British livestock. W. M. Sinclair and T. All-sop will visit fairs at Brandon, Man.; with the Governor, Earl Granville, Calgary, Edmonton, Saskatoon and Regina. One of the two officials will remain in Canada to visit the royal winter fair at Toronto.

Be content—but never satisfied.

Making Quite A Fuss

This fine group of turkey gobblers are making quite a fuss over one little hen.—(Photo taken on the farm of M. R. Stiles, Didsbury, Alta.)

Western Briefs

Unusual Sight

PLATO, Sask.—Lee K. McLeod reported an unusual sight here recently when between 500 to 1,000 white Canada geese landed on a slough and surrounding hills on the D. Maloney farm, five miles southwest of Plato.

Hail To Employees

VANCOUVER.—Half of Vancouver's record 1950 revenue of \$27,460,641 will go to salaries and wages of city employees.

Official Opening

FOAM LAKE, Sask.—Official opening of the Foam Lake composite high school will be held June 2.

Junior Ball Event

GREENFELD.—The Grenfell Canadian Legion will stage a \$400 junior baseball tournament on June 5. Outstanding teams from Saskatchewan and Manitoba are being invited and a large entry is expected to play on the four diamonds.

Fair Date Set

GRAVELBOURG, Sask.—Gravelbourg fair will be held July 5 and 6, it was decided at a special meeting of the agricultural society.

Old Way Best

DAUPHIN, Man.—Town council decided it will have none of that city-bred idea. The town won't adopt daylight time this year.

FUNNY And

OTHERWISE

Doctor: "I advise you to take a hot bath before retiring."
Patient: "Before retiring? But I won't be retiring for another ten years."

After going about three miles the motorist who had given an old lady a lift on the country road asked: "And where did you say you were going?"

"Well," she said, "to tell you the truth, I was going in the opposite direction, only I didn't like to hurt your feelings when you were so kind as to offer me a ride."

A country teacher came upon this "howler" while correcting exercise books recently:—
"A porpoise is what everyone should have in life."

"AC. M.D. is supposed to be familiar with all public questions, isn't he?" asked a friend.
"Yes," replied the M.P., "but not necessarily the answers."

Guide: "This is a Roman wall started in A.D. 20."
Bricklayer's Wife: "Lor, Joe, that's the sort of firm to work for!"

Husband: "Every time I look at that new hat of yours I feel I want to laugh."
Wife: "Really? Then I'll leave it about when the bill arrives."

"Did you visit the art galleries when you were in Dresden?"
"We had no need, Our daughter paints."

The old soldier had been telling hair-raising tales, and finished up by saying:
"Many a time I have faced the enemy unflinchingly; but what is life without risks?"

"You're right," replied the timid little man who had been listening. "Often when the weather forecast was doubtful I have ventured out without my raincoat."

RECIPES

TEA PUNCH

4 teaspoons tea
1 quart freshly boiled water
Juice of 3 lemons
Juice of 3 limes or 1 cup lime juice
Juice of 4 to 5 oranges
3 cups pineapple juice
1 cup maraschino cherries
Ice cubes
Make fresh tea, and allow to brew just about 5 minutes, strain and cool. Put ice cubes in punch bowl and pour tea slowly over the ice cubes, add fruit juices to this and blend well. Float 3 or 4 mint leaves on top. Dilute with water if desired.

DATE AND NUT LOAF

1 cup dates, cut fine
1/2 cup sugar or honey
1/2 cup butter, melted in
1/2 cup boiling water
1 1/2 cups all-purpose flour
1 teaspoon soda
1/2 teaspoon salt
1 egg, well beaten
1/2 cup chopped nuts
Mix dates, sugar (or honey), butter and boiling water; allow to cool. Sift and measure flour; sift again with salt and soda. Add well-beaten egg to date mixture, then dry ingredients and fold in chopped nuts.
Bake at (350 deg. F.) for 50 to 60 minutes.

PRaising REGINA PATS

Praising the Regina Pats in his Brandon Sun column, Krug Crawford writes: "No salaries and no promises, and the nearest approach to an amateur club we have in Canada. No wonder the west is proud of the Regina Pats."

Stettler Oilfield Shaping Up As Major Producing Area

EDMONTON. — The Stettler oilfield, 105 miles southeast of Edmonton, is reported by oil officials to be shaping up as a major oil-producing area, with six producing wells completed and more drilling under way. Located a year ago by a Canadian Gulf Oil company wildcat well, the field has been developed mainly by that company.

Production is from the devonian limestone, as in the Leduc, Redwater and Golden Spike fields. The oil is found in two strata about 5,200 feet down, dubbed D2 and D3 in the other fields. It is heavier than that found around Edmonton.

The discovery well, N. J. Ellis No. 4, produced oil at a rate of 1,400 barrels a day from the D2 zone, and 1,800 from the D3. Production is being taken only from the D2 zone.

At follow-up wells clustered within a quarter-mile radius, oil flow from the D3 zone has been as high as 2,000 barrels and from D2 1,800. An experiment now is being made with the company's fifth well to take production from both zones.

Three miles north of the Gulf projects, British Empire Oil Development limited, an independent Calgary company, got 800 barrels a day from the D2 zone and now is drilling a second well.

Growing interest in the field was reflected in the fast sale of crown oil leases by the Alberta government. J. A. N. Belshaw of Toronto paid \$207,789 for oil rights on a quarter section on the northwestern side of the field.

Gulf officials estimate the field has reserves of 100,000,000 barrels. Unofficial estimates have been as high as 150,000,000 barrels. Turner Valley, 25 miles southwest of Calgary, has produced 100,000,000 barrels and is estimated to have 25,000,000 left. The Leduc-Woodward field, 20 miles southwest of Edmonton, is believed to have 250,000,000; Redwater, 45 miles northeast of Edmonton, 600,000,000; and Golden Spike, 12 miles west of Edmonton, 100,000,000.

The proving of the Stettler field has renewed interest in further possibilities on the Alberta plains and untapped oil pools in the devonian formation.

On the prairie at Princess, Alta., 123 miles southeast of Stettler, the California-Standard company in 1944 struck oil in the same formation. The pool was small but it sparked the hunt for more.

Sportsmen Meet At Red Deer

Two hundred and fifty sports enthusiasts from a wide Central Alberta district gathered at the Elks' Hall, Wednesday, April 26, for the annual smoker of the Red Deer Fish and Game Association. It was an evening packed with entertainment and designed for the enjoyment of nimrods, fishermen and other outdoor sportsmen. A fair representation of ladies attended.

Excellent films were shown by Rennie Harley, Edmonton, provincial manager for Ducks Unlimited; and by Graydon Arnold, local representative for the National Film Board. D. F. Gray arranged a splendid entertainment program featuring Mel Bowie with his dancing puppet, Vancouver's Robert Robertson with the piano accordion; Hugh McLevin singing a solo and enlisting audience participation; and Percy Thresher combining with G. Fergstad in a vocal duet.

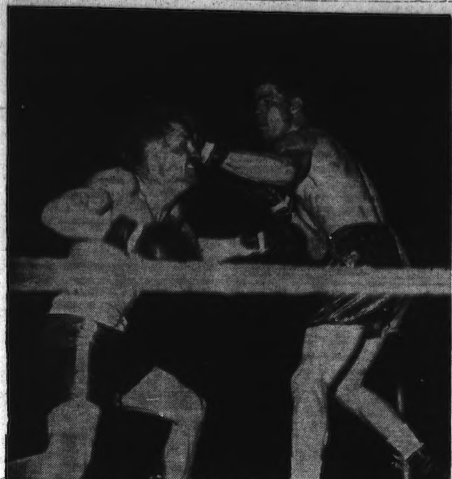

Addressing the group, Mr. Har-

ley said that Ducks Unlimited is spending \$125,000 in Alberta this year. This is nearly half of the \$300,000 available for the entire Dominion.

He warned that duck losses may be severe because of drought, unless spring rains are plentiful this year. The run-off from winter snow has been poor over the greater part of Alberta, and salvage operations may be necessary by transplanting young ducklings from dried-out sloughs to permanent lakes.

Mr. Harley asked members of the Fish and Game Association to keep a close check on drought conditions in case they are required to assist in salvage operations. Biologists, engineers and construction works of the staff of Ducks Unlimited are making a close check on the numbers of waterfowl returning from winter grounds, in comparison to last year's figures.—Red Deer Advocate.

Quebec City is Canada's oldest city.

Pictured above is Viking's pride and joy Gordon "Killer" Gray, and Edmonton's Joe Kallis in an exciting moment of their 6-round special event on Jack Berry's Boxing Card held in Edmonton last Thursday which was recorded as the best bout on the card. Kallis won out over Gray via a split decision, but the verdict was booed by the fans. From the looks of Joe's face in the above photo, Gordon's left is really packed with dynamite.

How many people to the gallon?

Many thousands of Canadians have a part in making a gallon of Esso available for your car.

About 12,000 of them are employed by Imperial. Some search for new oil fields; some move oil from producing fields to refineries where others make it into Esso and hundreds of other useful products; still others see to it that these are on hand wherever you want them.

Then there are almost 10,000 independent business men who, as Imperial dealers, supply you with our products.

And there are the many thousands of people who derive part of their livelihood from making and transporting the things that Imperial uses in its operations. Last year we bought equipment and supplies from more than 3,000 Canadian firms.

But those are not all.

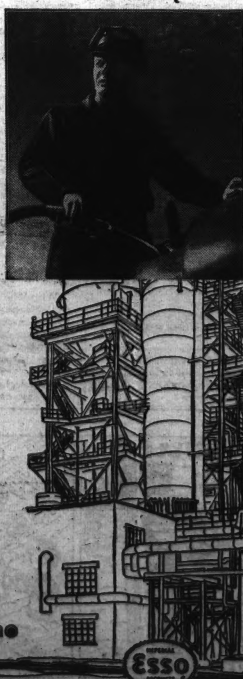

About 70,000 Canadian residents are shareholders in Imperial or owners of Imperial bonds.

And there are more thousands who have an investment in Imperial through their bank deposits or their insurance policies, because a number of Canada's banks and insurance companies have put some of their clients' money to work to help us do our job.

Finding oil and bringing it to you in the kind of products you need is a big job, a job that requires the skills and the savings of many thousands of Canadians.

Bringing you oil is a big job... and a costly one

Canadian Emigration

FROM TIME TO TIME concern has been expressed regarding the number of people who leave Canada each year to take up permanent residence in the United States. Figures on emigration were given in a publication which was prepared by the Central Housing and Mortgage Corporation, and tabled recently in the House of Commons. Based on records of the United States Immigration department and on figures taken from the British Board of Trade Journal, it was shown that approximately 158,000 people have left Canada since 1945, and that the greater part of them have gone to the United States. Some were immigrants from other countries who had come first to Canada and later decided to move to the States. Others were Americans returning to their own country after having lived here, and there were a small number of deportees each year.

Some Return To Canada

However, there were also many Canadians who have been trained and educated in this country, some in highly specialized trades or professions. It is recognized that in some fields of endeavour there are wider opportunities and greater financial inducements in the United States than there are here, and it is considered inevitable that we should lose talented and able citizens to that country. While it is true that many Canadians are attracted to the larger and wealthier nation, some return to Canada in later years. It has also been shown that the loss to Canada is somewhat offset by the fact that there are Americans of outstanding ability who have become Canadian citizens and have had successful careers here.

Is Cause Of Some Concern

There is immigration of Americans to this country each year, but the numbers coming in are considerably less than the number of Canadians who move to the United States. As an example, in the year 1947 there were 29,069 people who moved from Canada to the United States, while only 10,801 Americans took up residence in Canada. The balance between the numbers leaving Canada and those coming in has been the cause of some concern here. Since the war, 379,199 immigrants have come to Canada from other countries, but taking into account the 158,000 who have left in the same period, the ratio of those leaving the country was five to every twelve who entered, or nearly one departure for every two arrivals. The period since the war has been one of re-adjustments, and events taking place in that time might not be indicative of a permanent trend. However, it is well for the Canadian people to be aware of the situation, in view of the importance of immigration to the future development of this country.

POULTRY PRODUCERS MAY FORM MARKETING BOARD

REGINA.—Possibility that poultry producers throughout Saskatchewan might vote next fall on formation of a provincial producers' marketing board was reported here.

Representatives of the Saskatchewan Poultry association will likely meet with officials of poultry associations in Manitoba, Alberta and other provinces in June to discuss setting up similar boards in those provinces.

NEED MORE SUNFLOWERS

WINKLER, Man. — Farmers are being asked to grow more sunflowers this year. J. J. Siemens, president of the Vegetable Oils Refining Company, said Manitoba sunflower farmers received \$250,000 for their 1946 crops which were insufficient to meet all needs.

MANY CIGARETTES
About 1,000 cigarettes can be made from less than three pounds of tobacco.

Dumplings—light and fluffy with **MAGIC!**

MUSTARD-PICKLE DUMPLINGS

Mix and sift into a bowl, 1½ c. one-sifted pastry flour (or 1½ c. one-sifted hard-wheat flour), 3 tps. Magic Baking Powder, ½ tsp. salt. Cut in finely 2 ts. chilled shortening. Make a well in dry ingredients and add ½ c. finely-chopped mustard pickle in sauce and ¼ c. milk; mix lightly with a fork, adding salt as necessary, to make a drop dough. Drop in 6 portions, over hot cooked stew. Cover closely and simmer (never lifting the cover) for 15 mins. Yield—6 servings.

NOW IS THE TIME TO BUY...

DOW WEED KILLERS

Don't let weeds get a head start on you this year! Lay in a good supply of 2-4 Dow Weed Killer now. 2-4 Dow Weed Killer controls weeds growing in many crops. See your local agent handling Dow agricultural products without delay.

Write today for your free copy of the Weed Control Manual.

ROSIE'S OXFORD LAMB—This picture of three-year-old Rosie Jessup, daughter of Mr. and Mrs. John Jessup of Cross Lake, Sask., was snapped as she fed her pet Oxford lamb.

Future Warning

It was a week before seeding when all through the field, the hoppers were scheming to cut down the yield. The plans they were laid with great care. So destruction would flourish, till whole fields were bare. Not a stem would they leave, not even a leaf. They would cause the poor farmer much headache and grief. So they grew in a hurry, and then came the day. When they stretched their big wings and flew swiftly away. To the heavens they rose in the still August heat. Then like a bad hailstorm swooped down on the wheat. There were brothers and sisters and uncles and cousins. Brown ones and green ones by the millions of dozens. They were greedy and hungry from evening 'till morn. They devoured the wheat, barley, oats and corn. Then they flew to the garden and made such a scene. They ate all the onions and the golden wax beans. They lit on the rhubarb and chewed all they could. Then swarmed to the house and gnawed on the wood. They sneaked through the window and flew in the door. They crept on the ceiling and crawled on the floor. Where the farmer was eating in his everyday clothes. They came and they ate right under his nose. They nibbled his butter and chewed on his bread. They jumped from the table right on to his head. And then in farewell they buzzed in his ear. If you don't take "Precautions" we'll see you next year. —Alfred Mirau, McMahon, Sask.

SELECTED

RECIPES

ROUND CAKE

1 pound butter
1 pound sugar (fine granulated)
10 to 12 eggs or 1 lb. eggs
1 teaspoon flavoring
1 pound flour
Cream butter well, gradually add the sugar and cream together until light and fluffy. Separate the eggs. Beat the yolks until real light and lemon colored, add the vanilla and beat again.
Add the flour alternately with the stiffly beaten egg whites. Pour into tube pan, lined with brown paper and well greased. Bake at (325 deg. F.) for 1½ hours.
For distinct flavor, add 10 drops of lemon to cream batter. Cherries may also be added if desired, and should go in with the batter alternately with the flour. Cherries should always be dry before using in cake.

RAISIN NUT BREAD

1 cup seedless raisins
1 egg
1 cup milk
1 cup sugar
3½ cups flour
4 teaspoons baking powder
1 teaspoon salt
½ cup chopped nuts
3 tablespoons melted shortening
Rinse raisins; drain. Beat egg; add milk and sugar. Mix and sift flour, baking powder and salt. Combine with egg mixture. Add nuts, raisins and melted shortening. Pour into 2 small or large greased loaf pans; fill barely ¾ full.
Bake in (325 deg. F.) oven for 1½ hours.

EXTEND SERVICE
Alberta will install approximately 7,000 new telephones throughout the province this year.

THE TILLERS

Manitoba Experiencing A Rapid Industrial Growth

(Canadian Press Staff Writer)

WINNIPEG.—The face of Manitoba is changing. An agricultural province is getting manufacturing industries. Industrial expansion has been faster in the last 10 years than at any time in the province's history. The department of industry and commerce, in a review of its work last year, lists some rather amazing figures of Manitoba's industrial growth.

For instance, the value of manufactured goods produced in 1949 was about \$483,000,000, almost one-tenth more than the year before and more than double the figure for 1941.

The number employed in manufacturing was about 42,500, slightly up from 1948 but more than one-third above the number in 1941.

Payrolls last year totalled \$87,000,000 about one-tenth higher than in 1948 and more than double the figure for 1941.

The province now has about 1,600 manufacturing plants. During 1949 almost 50 new industries were set up. One-third of them went outside Winnipeg, in small towns which used to rely almost wholly on agriculture.

The department says more than \$25,000,000 of private capital was invested last year in new and expanded manufacturing facilities in Manitoba — more than two-fifths of all such money spent in the three prairie provinces.

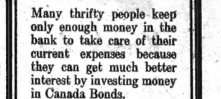

What is the reason for the interest being shown in the province as a site for factories? The department lists several.

One is the growth in population in western Canada generally. Another, the department says, is the increase in freight rates. This makes it profitable for firms to operate closer to their selling-place instead of shipping finished goods from eastern Canada.

A third is the increasing supply of labor—especially skilled workers—in Winnipeg and Manitoba generally.

The department says it expects "a continuing high level of industrial and business activity in 1950."

An average percentage of 2.02 of the population is sick all the time.

Waste Not
Want Not

Many thrifty people keep only enough money in the bank to take care of their current expenses because they can get much better interest by investing money in Canada Bonds.

They do not want to waste this extra interest and they know that there is no safer place to keep their money than in Canada Bonds which they can cash quickly any time they wish.

Note Carefully: If you own First Victory Bonds—

The Government has called First Victory Loan Bonds for redemption on June 15th. Interest stops on that date so be sure to arrange to cash your bonds and reinvest in the New Canada Bonds.

—By Les Carroll

OUR COMPLETE SHORT STORY—

A Couple Named Klutz

There's More Than One
Way Of Doing Some Things
By HAROLD HELFER

SEE that couple over there? You can't help but laugh a little? But they're real lovers, just as heroic and noble as Romeo and Juliet on this Tristan and Isolde or any in the books!

Sure, he looks ordinary—and comical, too. His weight, if you want to know, is 365 pounds, and his name is Klutz, Bert Klutz.

He always was a big man. But very jolly. Didn't mind kidding about his size. Fact is, he wisecracked about it himself. If he was going somewhere with another person, he'd say, "Well, let's us three go," and things like that.

Bert is a hat manufacturer and he met this Sally Johnson at a convention of hat manufacturers. She was the cigarette girl at the hotel. She was dark, saucy-eyed and on the cute side. She was only about 5 foot 2 and wouldn't have weighed much more than 95 pounds. That didn't keep Bert Klutz from going completely and absolutely overboard for her.

He'd never had much to do with women before, but he made up now. There can be money in being a hat manufacturer and Bert spent it left and right on Sally. And so they got married. Well, it was just one of those things, everybody said. Probably last a year.

Don't suffer needlessly from the torturing pain of ARTHRITIS RHEUMATISM

Try DOLCIN... now available in three convenient sizes. The cost is reasonable... the result is prompt relief from the pain of Arthritis, Rheumatism and Neuritis. There are no unpleasant after-effects. DOLCIN is safe, non-toxic... does not harm the heart or any other organ. You don't get DOLCIN. Get a bottle today and let DOLCIN help you come out from under the shadow of pain! BOTTLES of 100 tablets for \$2.50—50 tablets for \$1.25. DOLCIN is available in bottles of 500 tablets, Dolcin Limited, Toronto 16, Ontario.

Shelterbelt System

Shelterbelts and good farming work together towards producing good crops, according to Clifford Jones, Neilsprill, Saskatchewan, who planted the extensive shelterbelt system pictured here. Those in the foreground were planted in 1940, while those bordering the large fields were set out over a number of years. The trees conserve spring moisture by trapping snow, and in the summer cut down wind damage.

Low-Flying Planes
Affect Mink Farming

REGINA—Low flying in May is a wonderful sport but it can be very bad business for Saskatchewan mink farmers.

It is whelping season and the excitable, valuable little animals are very likely to attack their young in the panic induced by a low-flying plane.

A. K. McNeil, Fort Qu'Appelle, honorary president of the Saskatchewan mink breeders' association, has asked airports to co-operate by instructing their pilots to fly clear of mink farms during this month.

\$500,000 FURS SOLD
AT EDMONTON AUCTION
EDMONTON—Largest fur auction of the year here recently saw raw furs sold for close to \$500,000. Buyers were mainly from New York and Eastern Canada, with a few from Seattle, Los Angeles and other Pacific coast points.

Ranch mink advanced 10 per cent. over the February sale. About 25 per cent. were unsold. Of the main items in the sale, from 75 to 80 per cent. were sold.

PEGGY

Will Take
\$100,000,000
To Build Dam

REGINA—It would take at least \$100,000,000, at current labor and material costs, to complete development of the South Saskatchewan River project, provincial planning board officials indicated recently.

This, roughly, would cover costs of constructing a dam and reservoir, irrigation system and power plant. Building of the reservoir would require nearly 20,000,000 man hours of labor, and completion of the entire project would probably take 10 years, the officials said.

The project could feasibly irrigate nearly 500,000 acres of land bordering the river, and produce a valuable source of hydro-electric energy for

COMMERCIAL BEEF
CATTLE SET RECORD PRICE

LETTERBRIDGE, Alta.—A record Canadian price for a string of commercial beef cattle was believed to have been set here in the sale of 200 Hereford heifers at \$37.50 a hundred-weight.

the province. Present estimates (subject to revision) show that an average of about 400,000,000 kilowatt hours could be generated annually for consumer consumption. Additional features of the project would include recreational facilities in the South Saskatchewan and Qu'Appelle Valley and an economical municipal supply system for Regina and Moose Jaw.

It is also estimated that the dam could create a useful storage capacity in the reservoir of from three to five million acre feet. The reservoir would extend 160 miles down the South Saskatchewan River and Qu'Appelle River Valley, where a secondary dam would be located.

The main dam, of earth fill construction, would be slightly over 200 feet high and will stretch about 8,000 feet from bank to bank, according to present calculations.

Crusty, Crunchy DINNER ROLLS

They're really crusty and no trouble at all to make, with new Fleischmann's Royal Fast Rising Dry Yeast! Gives you fast action—light, doughy—and none of the bother of old time perishable yeast! Get a dozen packages—keeps full strength without refrigeration!

CRUSTY DINNER ROLLS
● Measure into a large bowl 1/2 c. lukewarm water, 1 tsp. granulated sugar, 1/2 c. sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Royal Fast Rising Dry Yeast. Let stand 10 mins. THEN stir well.

Add 3/4 c. lukewarm water and 1 tsp. salt. Add all at once, 1/2 c. once-sifted bread flour and work in with the hands; work in 3 lbs. soft shortening. Knead on lightly-floured board until smooth and elastic. Place in greased bowl. Cover with a damp cloth and set in warm place, free from draught. Let rise until doubled in bulk. Punch down dough in bowl, fold over, cover and again let rise until doubled in bulk. Turn out on lightly-floured board and divide into 2 equal portions; shape each piece into a long roll about 1 1/2" in diameter. Cover with a damp cloth and let rest 15 mins. Using a floured sharp knife, cut dough into 2" lengths and place, well apart, on ungreased cookie sheets. Sprinkle rolls with cornmeal and let rise, uncovered, for 1/2 hour. Brush with cold water and let rise another 1/2 hour. Meanwhile, stand a broad shallow pan of hot water in the oven and preheat oven to hot, 425°. Remove pan of water from oven and bake the rolls in steam-baked oven for 15 hours, brushing them with cold water and sprinkling lightly with cornmeal after the first 15 mins, and again brushing them with cold water 2 minutes before removing baked buns from the oven. Yield—48 rolls.

Siamese Twins Die From Shock of Operation

Brenda and Beverley Townsend are dead.
The red-haired, six-month old daughters of Mr. and Mrs. E. A. Townsend of Tofield died on an operating table at Royal Alexandra hospital, Edmonton, on Sunday, as doctors tried to separate them and give them normal lives.
All the medical skill of doctors and the prayers of the nation couldn't save them.
"The doctors ran into 'unavoidable hazards' and the shock of the three-hour operation was too much for the tots."
The young, grieving parents accepted the death of their children as "God's Will."
They issued a statement expressing appreciation for the comfort they had received from the wishes and prayers of relatives and friends and the "people throughout the whole country during our time of need."
Nine surgeon specialists who took part in or watched the operation agreed that "the attempt was justified but failure was inevitable."
Shock is Cause
The union linking the twins together, face to face, was so complex the operation took twice as long as had been planned and hoped.
The babies, born November 17 at the Tofield Alberta, municipal hospital, were joined face-to-face at the abdomen, the joining extending seven inches over their chests and abdomens.
The surgeons had also found a joining of the liver three inches thick at the centre they had expected to be the most difficult phase of the operation.
However, during the surgery a new hazard confronted the doctors. The pericardium, or membrane, covering the heart was found to be common to both babies. Pre-operative tests had failed to disclose it.
"One half of the heart of each child was actually beating within the chest of the other," Dr. Allan said at a press conference following the operation.

Beef Clubs Sponsor Fair And Sale At Viking May 29

Viking Beef Calf Club, together with the Holden Beef Calf Club, are sponsoring the fifth annual club fair and sale to be held at Viking on Monday, May 29. The fair, or as sometimes known, as the Achievement Day, will commence at 1:30 p.m. at the Viking Fair grounds. The Viking Calf Club will exhibit thirteen quality-finished fat calves that have been on feed for approximately two hundred days. When these are judged the Viking winners will compete against the Holden winners for the Champion and Reserve Champion Calves of the show. Special prizes will be awarded to the winners in each competition. Following the fair, the calves will be sold the same day at 3 p.m. at the same place. Mr. J. L. Kerns, Animal Husbandry Instructor, Vermilion School of Agriculture, will supervise the Fair and Sale.
In the evening a banquet will be held for the benefit of club

members, buyers, officials, and public. Tickets for the banquet can be procured in advance from any of the following club members: Gordon Lansing, Gordon Holmes, Gordon Maxwell and Gabriel Brissard, or obtained that evening at the place of the banquet.
The banquet will commence at 6:30 p.m. and the place is the Curling Rink.
This event promises to be a very interesting one for the residents of Viking and district. The Beef Clubs Fair is a good demonstration of the kinds and the importance of the kinds of cattle in our farming enterprise and should be well attended by the farmers and residents of the Viking district. The Viking and Holden Beef Calf Clubs take this opportunity to invite the public to participate in their Fair and Sale if you so desire.
Children's health and lives should not be endangered through neglect to immunize. Vaccination prevents smallpox, toxoid prevents diphtheria, and whooping cough vaccine checks whooping cough.

Locals

Miss Jean Gulliver has accepted a position on the staff of the Irma Co-op.
Miss Marjorie Chase has completed another year of her Home Economics course at Winnipeg and was glad to leave that watery city for the firmer soil of Irma.
There have been several good showers in surrounding districts. Let's hope there are some for us just around the corner.
The Ladies Aid will hold a Handicraft and Antique display and Tea in Keifer's Hall on Saturday, June 3 from 3 to 5:30 in the afternoon and 7:30 to 10 in the evening. Any ladies willing to contribute articles for display kindly leave with any member not later than Saturday morning, June 3. Your support will be very much appreciated in this effort.
Mrs. Basil Killick of Viking was renewing old acquaintances in Irma on Tuesday last.
Our heartfelt congratulations and sincere good wishes go to Mr. Henry Kasten, son of Mr. and Mrs. Robert Kasten of Edmonton and Miss Priscilla Ann Springs, daughter of Mr. and Mrs. R. H. Springs of North Hatley, Que., whose marriage will take place on June 3 at St. Barnabas Church, North Hatley, Que.
Born to Mr. and Mrs. King, nee Kathleen Jones, at the Wainwright hospital on Saturday, May 13, a daughter.
Mr. Keith Coffin was an Edmonton visitor on Monday of this week.
Don't forget the Irma' Legion Sports on June 14.
The regular infant and pre-school clinic will be held at the Irma Rest Room on Friday, May 26.
Mr. and Mrs. Haakon Larson spent a few days in the city last week.
The Irma CGIT held a very fine tea and bazaar on Saturday last.
Loughheed Home and School Association are sponsoring an Amateur Night in Loughheed Community Hall on June 6. All contestants wishing to compete are welcome. Contestants to submit their entries on or before June 1 to Mrs. D. Burden.
St. Mary's W.A. will hold its monthly meeting on Thursday, May 25 at 3 p.m. at the home of Mrs. E. H. Targett.
